LONDON IS WILD WITH WAR FEVER.

Great Demonstration Over Departure of Troops to Africa Today.

NOTHING FROM BULLER

Gen. Kitchener's First Act on His Arrival was to Increase the Press Censorship.

British Force Under Gen. Wood Has Reached Loutpaus and the Boers Are Advancing to Meet Them—Condition of the British Prisoners Taken at Colesburg—Joint German and American Action in Delagoa Bay Seizures.

Vienna, Jan. 13—[Special Cablegram]—A Brussels dispatch published here today says advices from Pretoria received there are to the effect that the Boers have stormed all the heights around Ladysmith and that the capitulation of that place is hourly expected.

Rhenesberg, Jan. 13—[Special Cablegram]—A strong British force today fought its way to and encamped at Seliggerfontein, on the Boer's eastern flank. The advance was under a hot artillery fire After retiring the Boers attempted to regain the position, but were charged by a detachment of New Zealand contingent and repulsed. The Boers fled toward Colesburg, the British firing volleys at the retreating enemy

London, Jan. 13—[Special Cablegram]—It is understood that General Kitchner's first act on his arrival at Cape Town was to increase the press censorship. This may account for the scarcity of details as to General Buller's movements in Natal. Nothing supplementary to General Buller's dispatch of January 11 has been received so far today. Nothing is expected until after the second attempt to relieve Ladysmith is made.

The first contingent of the City of London Imperial volunteers of five hundred, left this morning for the front. All London turned out, and the departure of the troops occasioned the greatest local demonstration in many years.

Boers Advance to Meet Him.

Cape Town, Jan. 13—[Special Cablegram]—The British force under General Wood, reached Zoutpans Drift in the Orange Free State. The Boers are advancing to meet him

The Boers have notified General Forestier-Walker of the condition of the British prisoners taken at Colesburg. Capt. Brown and four men died of wounds; Capt Brett was severely wounded, and two lieutenants and nineteen men are wounded.

German and American Action

London, Jan. 13—[Special Cablegram]—An Attache of the German Embassy called on Ambassador Choate today to urge joint German and American action against Great Britain because of seizures in Delagoa Bay. Mr. Choate gave the attache encouragement. It is expected that England will buy the American flour retained at Durban for the use of the British forces in Natal.

DEATH OF FRANCIS L. GREEN

Government Has Cabled Commander of Squadron to Mail All Particulars

Government officials as Washington state that it will probably be several weeks before the Navy department receives the full particulars of the suicide of Lieut. Commander Francis L. Green of the Montgomery on the South Atlantic station at Montevideo, Uruguay. All the particulars which the department has received were sent yesterday to Mrs. Green in Janesville and the department has wired the commander of the squadron to mail all particulars, which will not be received, it is believed at the department, within three weeks.

First Flag Pole on the Coast.

On the highest ground of a long, low hill distant about one mile to the westward of the little town of Bodega, in Western Sonoma county, Cal., there stands a tall, somewhat decrepit redwood flagstaff. This ancient-looking pole is about sixty feet in height, says the San Francisco Bulletin, is bent with age and exposure, and is slowly decaying. That plain, warped old redwood flagpole is the patriarch of all flagpoles not only in California, but on the entire Pacific slope. For it was the first erected to fly the banner of the Union when California and all other territory in the same latitude from the Pacific to the Rockies were taken possession of by the United States.

CORBETT SENT TO HOSPITAL

He Had to be Taken From Jail to Save His Life.

Racine, Wis., Jan. 13—Henry F Corbett of Milwaukee, held awaiting trial on a charge of shooting the Rev. and Mrs. Cheney, was yesterday taken to St. Luke's hospital for treatment. The physicians who examined him yesterday afternoon report that the prisoner's nervous spstem is in a terrible condition and that if he were to be kept in the jail he would undoubtedly die within a few days. Three deputy sheriffs have been assigned to guard Corbett.

REV. NEWTON LOSES CASE

Jury in the Municipal Court Was Out Fifteen Minutes

In the case of the Rev. William Newton against the Advent Christian church of Magnolia, which has been a trial for several days before a jury in the municipal court, the jury last evening found in favor of the church after being out fifteen minutes. The Rev. Newton claimed he was hired for a year at a salary of $200 and that he had received but $100. The church held that he was hired for six months and that he had been paid in full.

GOV. SCOFIELD FOR VICE PRESIDENT

SUITABLE RUNNING MATE TO MAKE RACE WITH M'KINLEY

Increase in the Number of Insane in the State of Wisconsin is About One Hundred Per Year—Total Number of Insane Now in the State Number 4,700.

Madison, Wis., Jan. 13—The Madison Journal, the official republican organ, last night printed a letter to the editor of the Journal, signed, "A Badger," in which Governor Edward Scofield is proposed as a vice presidential candidate. The letter reads as follows:

"The republican party is looking about for a suitable running mate for William McKinley. Edward Scofield of Wisconsin, is clearly the man that both party and country are looking for. He is from the west, which is desirable at this time. He is a veteran of the war, which will please great numbers. He is a business man. He has had experience in public affairs, including four years as governor of Wisconsin. This is imperative. He is available, and will strengthen the ticket."

Increase In Badger Insane.

Secretary M. J. Taffins of the State Board of Control said today that the increase in the number of insane in Wisconsin is about 100 a year.

President W. P. Lyon of the board believes that the state will make an appreciable saving by the recent ruling of the board regarding the maintenance of insane persons not properly dependants. The ruling requires relatives amenable under the statutes for the support of the insane to maintain them and where the unfortunates themselves possess estates their support is chargeable against such property, providing their entire income is not necessary for the support of dependent families of the unfortunate. The total insane of the state is now about 4,700. Of this number not over 100 are maintained by relatives of estate.

State G. A. R. Encampment.

The date of the thirty fourth annual encampment of the Wisconsin department, G. A. R., to be held at West Superior, has been appointed for Wednesday and Thursday, June 27 and 28. Charles C. Hoyt of Alonzo Palmer post, No. 170. West Superior, has been appointed an additional aide-de-camp on the staff of Commander Harden.

NECESSITY FOR FIXING THE DATE

Meeting of Republican State Central Committee May be Called for Next Week.

Milwaukee, Jan. 13—Secretary Gardiner P. Stickney of the republican state central committe this morning received a letter from Chairman Joe Treat calling attention to the necessity for fixing the date for the republican state convention to select delegates to the national convention and for suggestions as to the desirability of calling a meeting of the state central committee to arrange for the meeting.

Secretary Stickney said: "We may call a meeting of the state central committee for Wednesday or Thursday of next week. However, whether or not we have a meeting of the state committee at all depends upon the replies which we receive to letters which I shall send out to learn the disposition of the committee. If none of the members have anything in the way of business aside from the fixing of the date, the probability is that a mail vote will only be taken to fix the date of the convention. My own impression is that the convention should be held between March 20 and April 10, and I am now negotiating with Milwaukee theaters with a view to selecting a meeting place for the convention.

Insignificant Wounds.

A Berlin physician has written an article on the dangers resulting from what are considered insignificant wounds to the thumb: permanent disability followed in 60 per cent.

RUSSIAN ARMIES ADVANCE IN INDIA

British Domination Threatened From Transcaucasia and Siberia.

INCREASE OF NAVIES

The Czar is Making Preparation for a Great War on a Collossal Scale.

In Siberia as Close to the Frontier as Possible 250,000 Troops Are Now Assembled—Russian Naval Squadron at Port Arthur is Being Increased Daily—France and Germany May Join Against England—It is Believed War Will Follow.

St. Petersburg, Jan. 13—[Special Cablegram]—Seventy five thousand Russian soldiers have left Tiflis, Transcaucasia, for Baka, on the western coast of the Caspian sea. They will cross at once to Krarnovodsk, whence they will proceed to Kouschka, the frontier station on the borders of Afghanistan. They will soon advance to a point even nearer to Herat, the occupation of which town now depends only on events in Afghanistan and on the movements of British troops in India.

Big Army on Siberian Border

Russia's preparations for war are all taken. In Siberia, as close to the frontier of British India as is possible, 250,000 men are now assembled. Gen. Yonoff, recently designated for the especially important command of the Russian forces in the semi-Reitschensk district, already has arrived at Kouschka.

Warships Are Assembling

The Russians squadrons at Port Arthur and in the Persian gulf are being increased daily.

FRANCE AND GERMANY MAY JOIN

Continental Diplomats Look for Possible War With Great Britain

Moscow, Jan. 13—[Special Cablegram]—A dispatch from St. Petersburg, credited to a diplomatic source, says that on rush orders from Paris the troops in the local French garrisons are being concentrated on the frontier. Among diplomats at the capital the opinion prevails that the international situation as regards Germany and France in their relations with Great Britain is more dangerous than appears on the surface and that existing differences may yet lead to war.

PUERTO RICO IN A DESPERATE STATE

Uncle Sam Must Do Something for Its Relief—General Davis Calls on President McKinley.

Washington, Jan. 13—[Special Telegram]—General Davis, governor general of Puerto Rico, called at the white house this morning to see the president.

"Something must be done for the inhabitants of this island," said the general. "They are in a deplorable state, and unless this country comes to their relief, their plight will go from bad to worse."

Tallest Tree in the World.

The tallest tree on earth is believed to be a gum tree in the Cape Otway Range, Australia It is 415 feet high. Gum trees grow very rapidly. One in Florida shot up forty feet in four years, with a stem one foot in diameter; and another, in Guatemala, grew 120 feet in twelve years, with a stem nine feet thick. This is at the rate of ten feet a year, or nearly a foot per month.

GREYTOWN ROUTE HAS BEEN CHOSEN

Favorable Action on Nicaragua Canal Will be Taken by Congress.

DEMAND WAR MATERIAL

France, Russia, Germany and England Make Liberal Purchases in the U. S.

British Reply to Uncle Sam Regarding the Flour Seizures at Delagoa Bay Satisfactory to McKinley—Representative Stewart Placed on the Public Buildings Committee—$100,000 Naval Training School Wanted for Milwaukee.

Washington, D. C., Jan. 13—It is now certain that a strong effort will be made in the house to secure Nicaraguan canal legislation, and that the house will not wait for the Isthmian Canal commission to make its report. Today the committee on interstate and foreign commerce, of which Representative Hepburn of Iowa, is chairman, agreed to make a favorable report on the measure introduced by him proviving for a canal connecting the waters of the Atlantic and Pacific oceans. The appropriation covers $140,000,000.

The route provided for in this measure is what is known as the Nicaraguan route, and will extend from a point near Greytown, on the Caribbean Sea, by way of Lake Nicaragua, to Breto, on the Pacific Ocean.

The president is directed to acquire from the states of Costa Rica and Nicaragua the control of the territory now belonging to those governments which will be required to construct a canal.

Great Demand For War Material

Official advices which have reached Washington from American military advisers abroad are attracting much attention here There is an unusual increase in the European demand for ordnance material. The firms which manufacture shells and guns of all types are completely overwhelmed with orders from governmental purchasers. The significant feature about the news is that not only are Great Britain and the Transvaal governments in the market, but attempts at liberal purchase are being made by France and Russia. Germany is also negotiating for projectiles and guns, although its own sources of supply appear to answer its demands in that respect.

British Reply Satisfactory

At the cabinet meeting yesterday Secretary Hay read the reply of the British government to Ambassador Choate's representations regarding the flour seizure in Delagoa Bay. Members of the cabinet after the meeting said the British answer was entirely satisfactory to this government.

Stewart on Building Committee

The committee on public buildings of the house, held a meeting today and organized. Representative Stewart of Wisconsin was placed on the sub-committee that will handle measures relating to buildings in Wisconsin and a number of other states in the northwest and middle west.

Must Soon Buy Silver.

London, Jan. 13.—Renewed buying of silver by the Indian government, the Statist says, cannot be much longer delayed, in consequence of rupee coinage requirements, and this will lead, doubtless, to a marked improvement in the price of silver.

AMERICANS CAPTURE TOWN OF MACALANNES

Twenty Filipinoes Including a Colonel Taken as Prisoners—Nineteenth Infantry Also Deafeated a Force of Insurgents Near Cebu—Three Cannon and Some Horses Captured.

Manila, Jan. 13—[Special Cablegram]—The Americans yesterday captured town of Macalannes in the mountains in the western part of Cavite province. Twenty insurgents including a colonel were taken prisoners.

Advices from Cebu say that a battalion of the Nineteenth Infantry defeated a force of the insurgents occupying a strong position in the mountains. The Americans captured three cannons and a number of horses.

REBECCA MORGAN WILL CASE

Grandchildren Are Not Satisfied With Decision of the Jury

When the circuit court of Rock county opens for business next week among the cases that will come before Judge Dunwiddie will be the Rebecca Morgan will case. After several days' trial a jury brought in a verdict sustaining the will. Now the interested grandchildren are anything but satisfied with the verdict rendered by the jury. They state that they intend to keep right on fighting the action and if necessary take the case into the state supreme court. The action promises to be a most interesting one.

MISS MORRISON WAS HERE

Actress Who Was Charged With Murdering Frank Leidenheimer.

Miss Julia Morrison, the actress who is charged with the killing of Frank Leidenheimer, a member of same company, at Chattanooga, September 23, and who was acquitted on the jury's first ballot, was in Janesville as a member of the "Mr. Plaster of Paris" company which appeared at the Myers Grand. Miss Morrison is well known in theatrical circles and has appeared in Janesville several times.

LABORS NEW PLAN TO AVERT STRIKES

PROVIDE FOR A NATIONAL BOARD OF ARBITRATION.

Convention at Milwaukee Adjourns After the Passage of Important Resotions and Amendments to the Constitution—Officers Elected, Edward Carroll Being Again Made President.

Milwaukee, Wis., Jan. 13—The National Building Trades council, before adjournment last evening, passed resolutions which will lead to the formation of a national arbitration board. This national board will be an adjudication court of last resort, and whenever local unions and joint conference committees are unable to settle difficulties the national board will endeavor to do so.

It is the intention to have the board composed of contractors and laboring men, who will be appointed by the executive council of the National Building Trades council whenever the necessity for the formation of such a board arises.

The convention was adjourned at 5 o'clock yesterday afternoon, and as the delegates left the hall they sang the official song of labor, "Stick to Your Union," which had been adopted by the convention.

Edward Carroll, the president of the Chicago Building Trades Council, was reelected president. This will be his third term as president of the National Building Trades Council. Two candidates were seeking the office of general secretary and treasurer, and a lively contest resulted in the reelection of H. W. Steinbiss of St. Louis. John F. Harvey of Milwaukee, was elected one of the vice presidents.

The convention adopted an amendment to the constitution, providing for the formation of a defense fund. An assessment of five cents a member for ten weeks can be levied by the Executive council of the council upon all unions affiliated with it. The money thus obtained will be used to support organizations engaged in strikes. This fund will amount to $20,000 a week.

An attempt to secure a reconsideration of the indorsement of women suffrage failed. The reason given for the attempt was that it would be harmful rather than beneficial, to labor unions if women were allowed to vote. Few of the delegates seemed to share in this opinion.

SEMI-ULTIMATUM FOR THE SULTAN

Porte Notified By Russia to Pay Up the 1878 War Indemnity At Once.

Constantinople, Jan. 13—[Special Cablegram]—The Russian ambassador has delivered a semi-ultimatum to the Porte, stating that if the installment of the war indemnity of 1878 is not paid today, Russia will take severe measures to exact it.

Twenty-one Killed by Earthquake.

Amsterdam, Jan. 13.—There was an earthquake in Palembang, a Dutch province in the island of Sumatra, on Jan. 5. Fourteen villages were destroyed and nineteen natives were killed. At Bencoolen, on the west coast of Sumatra, two persons were killed and five injured.

Search for Gen. White in Iowa.

Des Moines, Iowa, Jan. 13.—Sheriff Mattern of this county has been notified by the officers at Lansing, Mich., that they believe Gen. W. L. White, late quartermaster-general of Michigan, is here. White is under indictment for disposing of state property.

Adulterated Coffee.

Painted coffee beans are among the latest curiosities of the adulterated food market. Inferior beans are colored with burnt umber and made to look like the finest Mocha. They are described as "shiney brown outside, yellow inside and tasteless."

SIXTY OR MORE PEOPLE PERISH

There is Probably Not a Surviver in St. Mary's Bay Wreck.

SOME DIE IN FLAMES

Vessel is Still Unidentified, but is Thought to be Californian or Corean.

Witnessess of Disaster See Many People Drown While Trying to Reach Land and Are Powerless to Render Aid Owing to the Furious Storm—Piteous Appeals for Help From the Ship—No Life Saving Appliances.

Boston, Jan. 13—[Special Telegram]—Details from the wreck in St. Mary's Bay, near St. Johns, N. F., this morning state that at least sixty people have perished and still it has been impossible to identify the wreck. A trunk has drifted ashore at Peters River containing a woman's clothing and millinery, which shows that women were on the the ship. Other garments were also picked up including a pair of trousers marked "J. J."

Probably There are No Survivors

The steamer, presumably east bound, went ashore before daylight Thursday morning. A treacherous current, uncharted because of its varying movement runs into St. Mary's bay and drags many a ship to destuction as it did this one. A snowstorm raged all Monday night and the shrewdest navigator would be baffled.

How this ship came to grief will ever remain a mystery for not a soul on board remains alive to tell the tale.

When the ship struck and was seen to be hopelessly wrecked, the crew launched the boats and tried to get away from the doomed steamer, but the mountainous seas crushed the frail boats and every person on them perished. One boat with two bodies, one believed to be that of a woman, was washed ashore in a cove but so far it has been too stormy to attempt getting it.

All On Board Have Perished.

St. John's, N. F., Jan. 13.—The details that have been received of the wreck of the unidentified steamship at Peters river, St. Mary's bay, show it to be a disaster of an unusually terrible nature. The name of the vessel is still a mystery, but it is a large ship and probably carried passengers, as pieces of many boats are visible about.

The settlers along the coast were drawn by the flames of the burning hull early Wednesday morning. The boat was then a complete wreck, and those on board were doomed to certain death. Three alone survived a company variously estimated at from fifty to seventy, with perhaps many passengers. These three escaped only for a time the death that had engulfed all the rest, for they never reached the land. The others had launched the boats after the vessel struck, but all had swamped at the davits, sending their human freight to speedy death.

The steamer went to pieces Thursday night, the fire flickering and dying as the water gained on it, and at midday there was nothing above the water but the topmasts.

The storm increased instead of decreased, and scattered the wreckage and reduced to disjointed limbs the bodies which were floating about the wreck. It is believed that all on board the steamship have perished. Indeed, it will be fortunate if the resistless wind does not complete its work of destruction before the storm passes, so that not an object will remain to identify the boat.

Owing to the fact that the boat was a two-masted vessel the marine officials here declare it was not an oil tanker, there not being a two-masted steamer of that build afloat. The belief is confirmed from the number of boats adrift that it is a passenger ship.

LOSS OF $10,000 AT BURLINGTON

Fire Starts and Burns Down Camera Factory of Multiscope and Film Company.

Burlington, Wis., Jan. 13—[Special Telegram]—Fire broke out in the camera factory of the Multiscope and Film Company, and as the fire had a good start before it was discovered the building and its contents were nearly destroyed. The loss is over $10,000 and insurance $3,000.

Increase of Railways.

For something like fifteen years the railways of the world have been increasing at the rate of 14,000 miles per year. The grand aggregate is now put at 443,100 miles.

EASTERN SWINDLERS SEND LETTERS HERE

ARE WORKING SAME OLD GOLD BRICK FAKE

Writer Says He is an Expert Engraver and That He Knows His Business —Is Fully Aware That Many Have Suspicion and Prejudice of Just Such a Proposition.

Green goods fakirs in the city of New York must have the opinion that many of the leading business men of Janesville are of the "dead easy" variety. During the past few days certain merchants here have received the following letters:

"Confidential—My Dear Sir:—

"Your name was sent to me by my son (who is a traveling representative) as a shrewd, reliable and trustworthy man for me to co-operate with in your vicinity and I therefore take the liberty of making you a proposition that ninety-nine out of a hundred up-to-date men would gladly grasp if they could personally examine my work thereby convincing themselves of the absolute safety of my offer. The writer is an expert engraver, having for 22 years been employed in the Bureau of Engraving, Washington, D. C., and for 12 years was superintendent of one of the largest bank note companies in the country.

"During my leisure I took up as a side issue the duplication of ones, fives and tens and as these were the original denominations that I had worked upon you can believe me when I say they are perfect duplicates. Now my dear sir I am fully aware of the suspicion and prejudice that you naturally will entertain for my proposition as you will on first thought class it as coming from a green goods or sawdust swindler, but if you will lay aside that prejudice, apply common sense and look at my proposition from a business standpoint, compare it with the methods of these petty swindlers and you will credit me with not being fool enough to waste my time addressing a man of your intelligence and standing in the community. The methods of the so-called green goods swindlers have been exposed from time to time in the daily press. They send out seductive circular letters to ignorant farmers, with a neospaper clipping in regard to counterfeit money, etc, falsely pretending they are the parties spoken of in the article and offering to sell that which they have not, inducing them to send on their hard earned money and sending them a valise of sawdust or a brick or some such in return.

"The reasons these rascals find it profitable to work this game is because they take it for granted that the people in general know that there are hundreds of thousands of dollars—counterfeit—in circulation, and as men have no moral scruples against increasing the money circulation (in fact the majority of the people are in favor of doing it by law, as witness the great greenback craze and the present silver agitation) they are induced to send on their money on the very liberal terms held out to them—five cents buying a dollar; or some such absurd price. No inteligent man would do it, for the very proposition is ridiculous. It would be buying a cat in a bag. For $500 I can make you rich."

This shrewd appeal, it is said, has secured a great many who are dishonestly inclined. It is said that special government agents are looking up suspicious cases in this section of the country.

SHOULD REMOVE THEIR HATS

First Ward Lady Says That Men Here Are Not Used to Elevators

Said a well known First ward lady to a Gazette representative this morning: "I had business today that called me to the fourth floor of the Hayes Bros' block. Of course I took the elevator. When I entered there were three men in the elevator, who are supposed to be among the leading progressive men of the Bower City. They may be business men, but in my estimation they are not gentlemen. Not one of those men removed their hats. Such rudeness would not be tolerated in Chicago. But then in Janesville, I don't suppose they know any better. Passenger elevators are now for this town; but then it only goes to show how little some people here know about what is going on in the outside world."

WHERE EYES ARE FITTED

Modern Optical Outfit of the Large City Style.

There is no longer need for people to go to the cities for optical work. So far as the actual fitting of glasses is concerned there has never been any reason for going away from Janesville for this work. Recently there has been fitted in the back part of F. C. Cook & Co's. jewelry store an optical room which is in every sense complete, and which will not find its equal in any city the size of Janesville in this part of the country; in fact the large cities have nothing better. This room is for the optician's use exclusively, it has a range of twenty feet for distance tests, is fitted with the latest devices for testing the eyes quickly and accurately. One of the features, and a convenient one, too, is the opthalmic cabinet of test cards, which is handled by the optician without the necessity of moving from the side of the patient. The refractometer is another apparatus which brings this department to the front; by its use drugs are entirely done away with, and the exact defects are laid bare to the operator; better results are obtained in difficult cases.

W. F. Hayes, the eye specialist, is to be congratulated in his work. Every progressive idea that is of value in optics he has adopted, and these coupled with experience with all classes of refractive work, give him a prestige not enjoyed by many opticians. Mr Hayes is in the city Saturday and Monday of each week, and can be consulted at F. C. Cook & Co's jewelry store.

Michigan Debaters Win.

Ann Arbor, Mich., Jan. 13.—Michigan triumphed over Chicago in the intercollegiate debate Friday night in rather easy style. The subject was, "Resolved, That municipal ownership and operation of street railways is preferable to ownership and operation by private corporations." Chicago supported the affirmative and Michigan the negative on the question. Chicago was represented by Arthur E. Bestor, Roberts McClure and Benjamin Samuels. Michigan's position was defended by Gustavus A. Ohlinger, Martin H. Carmody and Albert M. Cloud.

HOW JEFF DAVIS WAS CAPTURED

REBEL LEADER NOT DISGUISED IN WOMANS ATTIRE.

Lecture by Gen. Harnden Before the Weekly Students Meeting at Madison—Janesville Boy on the Junior Prom. Committee—To Maintain Base Ball Team.

Madison, Wis., Jan. 13—[Special]—At a recent meeting of the Junior class it was decided to hold the annual Junior promenade on Friday evening, Feb. 16, and committees were appointed to make all necessary arrangements. Roy A. Sanborn of Janesville, Wis., was appointed on this committee: and as the Junior Prom. is the swell social function of the year, a place on the committee is a much coveted position. The committee usually consists of one Junior member from each fraternity, and a number of non-fraternity men. Mr. Sanborn represents the Phi Gamma Delta fraternity of which he is a member.

At the weekly assembly of students, an address of unusual interest was presented in the "Story of the Capture of Jefferson Davis," by General Harnden, the officer in command of the men effecting the capture. General Harnden, who is a resident of Madison, told the story of that memorable event in a very quiet, unassuming manner, belitting the important part he played, and giving the credit to others. Although it was a picked body of men from the First Wisconsin cavalry that was sent in qursuit of Davis, yet it was a Michigan man who actually affected the capture by crying "halt" as Davis appeared from his tent in the morning. The Michigan men had come up in the night approaching the Davis party from one direction while the Wisconsin detachment approached from the other thus hemming them in The speaker emphatically asserted that there was no truth whatever in the universally believe story that Davis attempted to disguised in his wife's clothing. There was no foundation at all for the story excepting the fact that Davis had his wife's shawl thrown over his shoulders as the morning was damp and chilly.

The address was one of the most entertaining and instructive yet given and its close was marked by the demonstrative applause and cheering of the hundreds of students present' That these weekly meeting are popular is evident by the large attendance always present and Prof. Adam's innovation is considered one of the hits of the year.

At a mass meeting of student to be held Saturday afternoon the question of maintaining a base ball team will be decided. Base ball here has never been a financial success and it is this fact which has caused the opposition to backing a team. It is not believed, however, that the sport will be dropped as the present feeling of the student body is that such a move would be a serious drawback to the position Wisconsin has always maintained in all lines of athletics.

Pres. Eaton of Beloit College, will address a joint meeting of the students Y. M. C. A. and Y. W. C A. in Main hall, Sunday afternoon.

THE CURRENT HISTORY CLUB

Interesting Meeting at Mrs. E. M. Blodgett's Last Night.

The Current History Club met last evening with Mrs. E. M. Blodgett, corner of South First street and Park street. The attendance was as usual, large. The program was very interesting. A very beautiful piano duet was rendered by the Misses Stevens and Snyder. Jabez Isaac read a strong paper on "The Recent Developments in South Africa."

Mrs. Christine Hawley, Mrs. Fannie Clark, Mr. Leonard Matthews and Frank B. Smith sang, "Hail to the Beautiful Morning in May" from the cantata Joan of Arc, Miss Ada Pond presiding at the piano. Miss Mae Dewey read a very ably written paper on "Our National Songs and Their Writers." Miss Grace Tennant sang with feeling and effect a Gypsy song.

Mr. Fred Isaaac read an interesting paper on "Congress and the Roberts Case." Miss Luella Hill read a very able paper on "Odd Things in South Africa." Rev. Walter A Hall spoke informally and briefly on Dwight L. Moody. The choir sang effectively "The Stars in Heaven" by Rheinberger. Ten or fifteen minutes were then spent in a delightful social time. The next meeting will be held in the church lecture room and Mrs. W. W. Emmons will lead.

TO HOLD ROCK COUNTY FAIR

Not in Janesville But in Evansville During the Summer.

The progressive citizens of Evansville have again decided to hold a Rock county fair no matter what action is taken by the business men of this city for the holding of a county fair here this summer. But then in all probability the residents of the Cut Off City are safe in going ahead with all arrangements. No one here seems to be excited over reviving the holding of Rock county fairs in Janesville. The business men of Evansville made a rousing success of their fair last season and there is no reason why they are not capable of doing it again.

"Thou changest not—yet I am always changing," said the substitute to Rocky Mountain Tea. Made by the Madison Medicine Co 35c. Smith's Pharmacy; kodak agents.

THE FENIANS AGAIN.

How Canada Receives the Threat of Another Invasion—Story of the Raid of 1866.

BY ANDREW DOWNS.

The threat of another Fenian raid on Canada does not seem to give the Dominion government great uneasiness, although it has undoubtedly furnished a topic for discussion in the cabinet councils at Quebec. As a matter of fact, Canada is today in much better condition to resist an invasion from any source than ever before, and this in spite of the fact that more than two regiments of Canadian troops have been sent or are on the way to help the British in South Africa.

The call for a fighting force to assist the imperial arms in the Boer conflict has strengthened instead of weakened the military forces of the Dominion. It has caused the Dominion parliament to appropriate large sums for the reorganization of the militia force and given new life to Dominion arms from Halifax to Victoria. Canadians have

RUINS OF FORT ERIE, ONTARIO.

caught the martial spirit. They are eager to enlist for the South African war or for home defense. It would go hard with a Fenian force caught over the border just at present unless that force should be much greater and far better organized than the one led by Colonel John O'Neil in 1866.

Still Canadians who remember that raid, which was the only affair worthy of the name, have a certain respect for Fenians in a body. They had rather not see the green flag again. Many of them recall that for two days the flag of Ireland floated over a Canadian fort and that in at least one engagement the Fenian forces were signally triumphant, although greatly outnumbered.

The conditions in 1866 were most favorable for an enterprise of this kind. Great numbers of Irish-Americans who had served in the civil war were unemployed and looking for trouble. Throughout the United States there was an intense anti-British feeling. The Alabama claims were still pending, and the English attitude toward this country during the long years of fighting was fresh in the memory of the people.

It was about this time that the Fenian brotherhood became a most popular and flourishing organization. The object was to free Ireland. Indeed the republic of Ireland was proclaimed and a government organized. Bonds were issued. I have, as I write, one of these old bonds before me. It is a well executed document, bearing the promise of the aforementioned republic of Ireland to pay $10 to the bearer on demand.

The raid began on the night of May 30, 1866. Colonel John O'Neil, a veteran of the civil war, at the head of 600 men, was in Buffalo. His small force was made up mainly of ex-Union and Confederate soldiers from Tennessee, Kentucky, Pennsylvania and Indiana. There was also a battalion under Colonel John Hoy of Buffalo.

FACSIMILE OF FENIAN BONDS, ISSUED 1866.

The crossing of the Niagara river began shortly after midnight on May 31 at Black rock, three miles east of Buffalo and nearly opposite historic Fort Erie. The men crossed in scows and rowboats, landing at the village of Waterloo about 4 in the morning of June 1.

Colonel Starr, who commanded the Fenian advance, raised the Irish flag over the Waterloo town hall and subsequently over the moss grown ramparts of Fort Erie.

About 8 o'clock the next evening O'Neil's scouts informed him that two columns of the Canadian forces, aggregating about 5,000 men, one having cannon, were bearing down on him from Chippewa and Port Colborne.

Near Ridgeway the Fenians met the Canadian volunteers, composed of the Queen's Own rifles of Toronto, the Thirteenth infantry of Hamilton and some other regiments.

The Fenian line was posted behind a breastwork of fence rails and was outnumbered several times over by the Canadian force. File firing commenced on the Fenian side and was responded to by the Canadians. O'Neil recognized that the ranks of the hostile force were being so prolonged as to threaten his envelopment, and he resolved to execute a dangerous but necessary movement in face of his enemy. He ordered his men to fall back a couple of hundred yards in order to coax the enemy's center from cover and to avoid being outflanked and enfiladed. The maneuver was successfully carried out and a new line of battle formed in the face of a rapid hostile advance and deadly fire.

The Canadians were certain that the Fenians were in retreat, and they prepared to follow up their supposed advantage. The result was what O'Neil had played for. The Canadians uncovered their center, and O'Neil immediately ordered his whole line to charge. Led by Captains Geary, Donohue and Haggerty, the Irish center companies dashed for the corresponding point in the enemy's line, while the flanking companies opened a terrible fire on the wings of the Canadian force.

O'Neil, Starr, Fitzpatrick and other Fenian officers on horseback appeared at the edge of the wood, and this sight filled the Canadians with apprehension, which quickly developed into panic.

"Cavalry! Cavalry!" became the cry in the Canadian ranks. Their line of

RIDGEWAY BATTLEFIELD AS IT LOOKS TODAY.

battle faltered, wavered, broke and immediately fled over trenches and fences and along the highroad in hopeless rout.

O'Neil pursued the Canadians some distance beyond the village of Ridgeway; but, being informed by his scouts that he was in danger of being cut off by the other force in his rear from Port Colborne, he was compelled to retrace his steps in order to meet his new enemy.

Six or eight of the Fenians had been wounded in the fight, while the Canadian loss was 1 officer and 12 men killed and 2 officers and 65 privates wounded and a dozen rank and file made prisoners.

O'Neil marched his force back to Fort Erie, where he again got into conflict with the Welland canal volunteer battery of artillery, commanded by Captain King. A stubborn fight ensued, the result of which was that after a few men had been killed and several wounded on both sides the Canadians surrendered. Nearly 50 Canadians were taken prisoners and a large quantity of arms and ammunition captured, which had to be destroyed.

O'Neil had been kept informed by his friends in Buffalo of the condition of affairs across the American border, and he found that any immediate re-enforcements from the American side could not be had. He determined, therefore, to carry back his little force before a formidable column of British troops, advancing against him under Peacock, could surround and destroy him.

He threw up such works at Fort Erie as he deemed necessary for its defense and sent word as to the situation to Buffalo. The Fenian leaders there, seeing the hopelessness of continuing the fight with O'Neil's small force, took steps to have them brought back from the Canadian side. They chartered a tug and a large scow and sent them across the river. O'Neil and his men embarked for the American side, but were arrested on the way by the naval force of the United States government posted on the Niagara river for having violated the neutrality laws.

O'Neil and his officers were placed under heavy bonds, the United States gave transportation to their homes to all who would accept it, the government issued a proclamation against the breach of the neutrality laws, and the result was the collapse of the Fenian movement along the border.

BRIEF BITS OF COUNTY NEWS

Preparing for Convention.

Philadelphia, Pa., Jan. 13.—The active work of the national committee of the republican party in preparation for the convention has begun. Senator Joseph H. Manley, H. C. Payne, N. B. Scott of West Virginia, Mr. Kerens, Secretary Dick of Ohio and Chairman Hanna are in the city. The Convention association has collected more than half of the guarantee fund of $100,000, and part of it will at once be placed in the hands of Chairman Hanna.

It is said Lieut. Gov. Woodruff of New York will open headquarters here in the interest of his fight for the vice presidential nomination.

When life's autumn comes, women, worn out by the burdens and obligations of motherhood, yet shrink from that second "change of life" which will banish these burdens forever. They fear a change in form, in feature, in personal attractiveness, and that the lees of life will alone remain at the bottom of the cup of existence. Such fears are largely warranted by the effects which this change produces in many women. But no woman need let these fears fret her, who from the time of the first change of life, from girlhood to womanhood, has taken care to constantly keep her system in vigorous health.

Those who have used Dr. Pierce's Favorite Prescription do not suffer from the change of life either in face, form or feelings as do other women. This fact is due to the intimate connection of the general health with the health of the organs peculiarly feminine. By preserving the health of these organs, and relieving the system from the debilitating drains, ulcers and inflammations which sap its health, "Favorite Prescripton" paves the way for this natural change to come in Nature's way, without the loss of capacity to please others or the personal inability to enjoy life.

Mrs. M. Barnes, of Balls Ferry, Shasta Co., Cal., writes: "My physician said I was suffering from the effects of 'change of life.' I had heart disease and womb trouble and rheumatism. My head was so dizzy I could hardly stand up. When I began Dr. Pierce's medicines I improved right along. I took seven or eight bottles of the 'Favorite Prescription,' a teaspoonful three times a day, and the 'Pleasant Pellets' at night. I feel as well as I ever did."

There is no alcohol, whisky or other intoxicant in "Favorite Prescription," neither does it contain opium or other narcotics.

You may be willing that somebody else shall say that their baby is "just as good" as yours, but you don't want that baby substituted for yours. Let dealers say what they like about other medicines being "just as good" but don't let them substitute anything for "Favorite Prescription."

Dr. Pierce's Pleasant Pellets cleanse the clogged system of impurities.

BIG TRADE IN SIGHT.

"Hardware," a well known trade publication, has this to say concerning the trade prospects in "our foreign possessions."

A hundred million dollars a year appears to be the present market offered to the people of the United States by Cuba, Porto Rico, Hawaii and the Philippines, provided we are able to supply the normal demand in those islands for foreign products. This estimate is based upon their actual consumption in years of normal conditions. How rapidly this will increase remains to be seen, but if the experience of the past year in Hawaii is an indication of what will happen elsewhere the increase must be very rapid. The exports from the United States to Hawaii in the ten months of 1899 whose record is now complete are more than double those of the corresponding months of 1897 and nearly double those of the corresponding months of 1898, while to Cuba they promise to exceed in 1899, those of any previous year, even surpassing that of the great reciprocity year 1893, when the exports to that island were double the average of earlier years. More than one half the supplies which Cuba, Porto Rico and the Philippines have received from other parts of the world in former years have been furnished them by Spain.

Senator Spooner's bill providing that that the matter of the Phippines be left with the president until Congress should take action, is supposed to represent the sentiment of the administration. The plan would appear to be a wise one. President McKinley has shown rare statesmanship and will make no mistakes.

If, as the papers say, Chief Swenie of Chicago, wants a real good ordinance to control the storage and sale of gasoline, he can learn something to his advantage by writing Chief John C. Spencer of Janesville, Wis. Chief Spencer's regulation will be found to cover the ground in all respects.

When Aguinaldo hears that Col. Bryan no longer considers the Filipinos capable of self government he will cut Bryan's acquaintance. Aguinaldo is not onto the fact that he has Bryan's sympathy only in the hope that Bryan will gain thereby.

Constant Reader—The new Russian minister of the interior is named Dimitri Sergeivitch Sepjagin, and is a lawyer. We cannot tell you how to pronounce his name. Have it translated into music, and play it on an accordeon.

President McKinley has much confidence in Senator Spooner, as recent events have shown. The senator will not be found wanting in any emergency, and the president is wise in relying upon him.

The Milwaukee democrats are now divided on the street car issue. It is a very cold day when the Cream City Bryanites can't find something to quarrel over.

Col. William J. Bryan of Nebraska, is the latest convert to the expansionist cause. This fact will not attract very wide-spread attention, however.

A great surprise is about to be sprung on the Gulf of Mexico. The Chicago river is now flowing into the Mississippi.

Secretary Gage appears to be able to supply all the information wanted, and a little more.

All efforts to form an oyster trust have fallen into the soup.

Senator Pettigrew says—but life is short, so let it pass.

Senator Clark's money talks as loudly now as it ever did.

Figures Are Sometimes Impressive.

An English physicist in a recent lecture, in order to bring to the comprehension of his hearers the idea of ultimate particles of water, said that if he were to empty a tumbler containing half a pint of water, letting out each second a number equal to one thousand times the population of the earth, it would require somewhere between 7,000,000 and 47,000,000 years to empty the tumbler. Lord Kelvin says that if a drop of water were magnified to the size of the earth the particles would be between the size of cricket balls and that of footballs. If that statement is correct, the drops of water in all the oceans are not many times as numerous as the particles, or molecules, in a single drop.

ROBERT SCHILLING HAS GOT DISGUSTED

HE ANNOUNCES HIS RETIREMENT FROM POLITICS.

Accounts of Ex-Sheriff Isenring Found to be Short About $7,000—First Candidate For Mayor of Milwaukee Next Spring—Not Satisfied With Bond.

Milwaukee, Jan. 13—Bob Schilling has quit. Everybody knows Bob There has not been a new party formed in the country in the past twenty years that he was not in at the bornin'. As he says in a letter which he has just made public, he has given twenty of the best years of his life to the work of trying to reform politics, and now he will quit. He is disgusted and after calling the people he has tried to help "fools," "cattle," and other unpleasant names, he announces his retirement from the political arena in which he has been a gladiator for nearly a decade. He relates at length his troubles while trying to regenerate mankind and says:

"For these and many other reasons which I might enumerate I have concluded that the people of Milwaukee neither desire nor appreciate my services, and so propose to retire from politics so far as Milwaukee is concerned—at least for the present. When enough of the 'fools' die off—if they ever do—so as to show signs of returning reason and common sense among the voters, I may if asked, contribute more efforts to educating them."

Isenring is Still Missing

So far as can be discovered, ex-Sheriff Isenring is short in his accounts to the amount of between $7,000 or $8,000. This sum is made up in fees which he received and did not account for. What has become of the ex sheriff is a mystery.

First Candidate For Mayoralty

The first candidate to announce his desire to be mayor of Milwaukee for the two years succeeding next May is Wade H Richardson Mr. Richardson is a prominent Grand Army man. He said today that he was a candidate for mayor but that was all he would say on the subject. He will have plenty of company before long.

Not Satisfied With the Bond

There has been no move of late in the Milwaukee and Southwestern Railroad matter. The members of the county board are not satisfied with the bond filed by the company, as all the signers live out of the state and could not well be reached in case the contract of the railroad for which the bond is a guaranty was not kept. Until this is settled the question of a special election will not be taken up.

A Subconscious Thief.

A man in Corder, Lafayette county, Missouri, missed things from his smokehouse, and wishing to catch the thief, set a trap. Then he went to bed and awoke to find himself in the trap. He had been walking in his sleep and had systematically robbed himself. That day he began a search and in an old dry well on the premises he found sixty-one cans of his wife's jam, several pairs of shoes, eleven bars of soap, two pairs of spectacles, a pumpkin "and other articles too numerous to mention."

Three Hundred Years Old.

Slém, N. J., is notable for being one of the oldest towns in that state. One of its most venerable objects is a brick dwelling on East Broadway, once occupied as a hotel, which was erected in 1691. The building is in a fair state of preservation and is referred to with a pardonable pride by the people of the little town. The court house was built in 1735 and justice is still administered from beneath the broad arch which spans the stage-like platform upon which the presiding judge sits.

AMUSEMENT NOTES.

The record of the new "Humpty Dumpty" is a universal surprise to the amusement world, Enormous houses and unstintad praise have greeted the production everywhere. The press declare it is a magnificent spectacle. Here is an opinion from the Cincinnati "Inquirer" of Sept. 18.

"Dear Old Humpty-Dumpty" revered in a past generation, has been revived and falls off the fabled wall for the delight of another and younger generation than it was formerly presented to The piece was put on at the Walnut and met with a flattering reception. At 7:30 there was only standing room and at 8 the box office window closed and turned hundred away. Such a production of pantomine has not been seen in over twenty five years, and the transformation so far has never been equaled in America. Everybody should see this gorgeous sight."

It will appear at the Myers Grand Opera house on Tuesday evening, January 16.

To Stamp Out Consumption in Germany.

An organized attempt is being made to stamp out consumption in Germany by scientific methods of treatment. Already twenty sanatoria for patients have been opened, and others are to be provided. A congress is to be held in Berlin for the purpose of making the war against consumption a national movement throughout the German empire.

MIDWINTER FAIR NOW BEING PLANNED

COMMITTEE HELD MEETING LAST EVENING.

Live Stock Will be a Feature This Year—Show Will Probably be Held During the Month of March—Liberal Prizes Will be Offered All Farmers.

At a special called meeting held last evening resolutions were passed favoring the holding of a mid winter fair in Janesville. Probably during the month of March the fair will be held in the rink building on South river street.

Those in attendance at the rink building last evenink were Fred S. Sheldon, Robert M. Bostwick, George McKey, W. E. Evenson, Fred L. Clemons, A. E. Bingham, I. F. Wortendyke and C. S. Putnam.

If the time does not conflict with the round-up of the farmers' institute it will be held on Tuesday, Wednesday and Thursday, March 6, 7 and 8.

Previous mid-winter fairs held in Janesville speak for themselves. They have all been a success in every sense of the word Farmers from all parts of the county participate and it has been plainly demonstrated that such a fair helps the city in general Local merchants should not be backward about putting their shoulder to the wheel and helping along a good thing. It's for their benefit.

The fair this year promises to be a record breaker. Following were the committee appointed last evening.

Finance—Wm. H. Greenman, Charles C. Russell, and I. F. Wortendyke.
Horses—Charles S. Putnam, Dr. E. D. Roberts, Alex. Galbraith and P. J. Mouat.
Advertising—Will E. Evenson, Charles S. Putnam, George D. Simpson, Alex. Galbraith and P. J. Mouat.
Vegetables—F. S. Sheldon, J. P. Baker, W. J. Skelly, M. M. Marzluff, Frank C. Haselton and Colin C. MacLean.
Grain—W. E. Evenson, George M. McKey, C. C. MacLean E. J. Smith and I. F. Wortendyke.
Miscellaneous—Robert M. Bostwick, I. F. Wortendyke, Charles C. Russell and J. C. Wilmarth.
Amusements—George D. Simpson. Fred L. Clemons and Charles S. Putnam.
Culinary—W. P. Sayles, Robert M. Bostwick, F. A. Sholdon, C. C. Russell, W. H. Greenman, George D. Simpson.
Dairy—F. M. Marzluff, R. J. Whitton, W. E. Evenson and George M. McKey.
Poultry and Pet Stock—E. J. Smith, W. E. Evenson, R. J. Whitton and P. J. Mouat.

In the fancy work department heretofore the farmers wives have had exclusive right in the receiving of prizes at which city people or people from smaller towns were not allowed to participate. This year a department for city people will be added, at which the country people will not take part, thus giving both city, town and country wives an equal opportunity for the exhibition of work.

Poultry and pet stock are new departments. Liberal prizes will be offered.

Such Visitors Not Wanted

Complaint comes to The Gazette from some ladies of La Prairie that at a club dance given at the Grange hall this week a party of Janesville's young boys came out in a carryall with whisky bottles, got drunk and disturbed the dance. LaPrairie people do not desire such visitors from Janesville.

THE KING OF PALI.

Surrounded by His Followers, a Truly Medieval Picture Was Presented.

My first sight of the king of Pali was most imposing, says the Geographical Journal. Having heard of the approach of my party, he came out to meet us. We had stopped the night before at the small village of Jepiroh, beautifully situated on high ground and chiefly remarkable for the numbers of small green and red parrots that swarmed in the guinea cornfields all round it. It was the only place where I saw them in any quantities. We started off about 6:30, while the heavy dew was still sparkling on the grass, and soon met the head of the Pali contingent. First came 150 bowmen carrying nothing but their weapons and wearing only the smallest of loin cloths. At regular intervals among them were mounted officers. Next came a bodyguard of twenty picked men dressed in red gowns with white plaits down the back and armed with every imaginable kind of gun, the locks of which were incased in leather. After passing these men I came on a really beautiful sight. The king had drawn up under the trees on one side of the path, and some forty or fifty mounted followers had arranged themselves all around and behind him. They were dressed for the most part in white gowns, but generally with either a colored lining or another colored gown underneath. Voluminous white or blue turbans covered their heads, and some of them wore very handsome riding boots, though the majority were barefooted. The high-peaked saddles were covered with brightly colored saddle cloths and the horses' heads were almost hidden by enormous bridles, covered with tin ornaments, which kept up a perpetual jingling as they tossed their heads about to keep off the flies. On my approach they waved their spears over their heads with the butt to the front in token of friendship. This, with the king in the center wearing a cap of chain mail under his turban, and bowing with courtly grace, made a truly medieval picture.

Jurisprudence.

"And you still employ the ordeal of fire in your courts of justice?" we exclaimed, in horror. The barbaric king hastened to explain that recourse was had to the ordeal of fire only in certain cases. "If a man is accused of murder," said his majesty, "we do not subject him to the ordeal of fire, but if he is accused of wearing celluloid collars, we do." After all, there was something in the jurisprudence of this rude nation to command our respect.—Detroit Journal.

MRS. HANNA WILCOX DIES SUDDENLY

MOTHER OF GEORGE WILCOX OF JANESVILLE.

Her Demise Took Place at Her Home in Beloit Without Warning—Other Deaths of Well Known Persons—Two Funerals Took Place Here Today.

Mrs. Hanna M. Wilcox, mother of George Wilcox of this city, died suddenly at the home of her daughter in Beloit.

Her death occurred almost without warning. Mrs. Wilcox had been in apparent good health and attended a prayer meeting the night previous. She was fifty-nine years of age and had lived in Rock county for nearly 45 years. Two children survive her. They are George Wilcox of Janesville and Mrs. Webb, of Beloit.

The funeral services were held from the house on Euclid avenue this morning at 10:30 o'clock. Rev. W. W. Sleeper of the Second Congregational church had charge of the services.

Michael Griffin.

Funeral services over the remains of the late Michael Griffin were held from St. Patrick's church this morning at 9:30 o'clock. The interment was in Mount Olivet cemetery. At the church high mass was celebrated. There were many in attendance.

Harvey Smith

Funeral services over the late Harvey Smith were held from the house, 126 Chatham street, this afternoon at 2 o'clock. The interment was in Oak Hill cemetery. Rev. W. A. Hall, pastor of the Court street M. E. church, officiated.

ABANDONED WIFE WOULD NOT TESTIFY

HERBERT HODGE LODGED IN JAIL HERE SET FREE,

Was Taken From Janesville Yesterday to Beloit Where He Received His Hearing.—His Better Half Would Not Prosecute — Ill Treatment Seemed to Make no Difference.

Herbert Hodge, who has been confined in jail in this city on the charge of abandoning his wife and children in Beloit, was yesterday taken from jail for his hearing.

When the case was called in Beloit a touching example of a wife's devotion was shown in the police court, when the woman, whom Herbert Hodge had failed to supply even with the necessaries of life, refused to give damaging testimony against him. Hodge then received his freedom.

About ten days ago Hodge was arrested by Marshal Appleby for failure to support his wife and children, who were actually suffering from the want of sufficient food and clothing, but when his case was called in court yesterday, the wife forgot her wrongs and humiliations and championed the cause of her husband. After a short conference between the husband and wife, Marshal Appleby moved that the case be dismissed, which the court sustained.

SARCEY'S DOUBLE.

Has a Great Many Troubles On Account of the Resemblance.

A leather merchant named M. Bonier, who is in business near the Place de la Republique, is the hero, or the victim, as one likes, of a most remarkable resemblance to the eminent late dramatic critic, M. Francisque Sarcey, says the London Post. M. Bonier has just been relating his woes to a sympathizing journalist. He cannot, he says, pass along the street without observing clean-shaven individuals start and turn pale when their eyes light on him. But worse things befall M. Bonier. In the Rue de Doual a few days ago a well-dressed young woman fainted on perceiving him. When she recovered she repeated in terror-stricken accents, "It is he! It is he!" and the crowd, mistaking the reason of her plight, imparted to M. Bonier the information that he was an old rascal and ought to be ashamed of himself. Equally amusing was the leather merchant's experience at the ambassadors' concert, where M. Sarcey's former foe, Yvette Guilbert, is now appearing. The singer, noticing M. Bonier, recited some verses on the subject of M. Sarcey, and by her gestures drew the attention of the audience to his double. The public were delighted, of course, but not so M. Bonier, who got up and left the concert. M. Bonier much regrets his resemblance to the late critic, the results of which he declares to be most annoying to a peacable tradesman. He says that one day he was asked in the street for a letter of introduction to M. Jules Claretie, which so vexed him that he almost came to blows with the applicant.

Says Goebel Will Be Governor.

Frankfort, Ky., Jan. 12.—Riotous conditions are expected to develop in this city within the next two or three weeks unless one or the other of the opposing political bodies abandons advanced ground. Ex-Gov. Bradley, presumably speaking for Gov. Taylor, declares that if the Goebel legislature proceeds in the pending contest under the rules adopted it will be a lawless aggregation of men and its action will be ignored by the governor and lieutenant-governor. Speaker Trimble, whose voice is said to be practically the voice of Goebel, says the legislature will operate under its existing rules and that Goebel will be governor.

DEATH RATE DECLINING.

Longevity of the Human Race Is Increasing Year by Year.

From Leslie's Weekly: All who hope and believe that the conditions of human life throughout the world are gradually improving will find practical support for their hope and belief in an address recently delivered before the British Medical association by its president, Dr. Ward Cousins. Among other things Dr. Cousins discussed the future progress of preventive medicine and predicted a steady and great decline in the death rate in the coming century. For the realization of this great object he looked, above all, and rightly looked, to an improvement in the conditions and in the dwellings of the working classes. And he was especially right in pointing out that this improvement cannot come from mere legislation. "The great mass of the people must become willing and active helpers," he said, and in equally true words he showed how largely the prevention of suffering and the preservation of health are within the reach of the working classes in our great towns if they will only cultivate temperance and cleanliness. In this connection we are gratified to observe the action of the New York health board in distributing among the people a circular setting forth in clear and simple language various easy methods to be observed for the prevention of disease, the spread of epidemics and some sound advice generally in regard to healthful living. This is practical service for the public good and it will undoubtedly be successful to material degree in a further decrease of the mortality rates.

Spaniards Good Map Makers.

"The Spanish engineer officers were among the best 'mapmakers' I ever saw in my life," said Capt. Stephen O'Connor, who has recently returned from the Philippines. Their maps of Luzon were perfect, and I never saw any that excelled them. Every road, stream and hamlet appeared on these maps, and not only this, but the plotting was exact. I do not know that at any time in my life I have found maps to excel these."

Cautionary.

A Georgia colored preacher has more than one way of making sure that none of his parishioners let the contribution plate pass unnoticed. "We have a collection for foreign and domestic missions dis morning, bredren and sisters," he announced one Sunday, "and for de glory of heaben, whicheber one ob you stole Widow Johnson's sheep, don't put a cent on de plate!"

Good Corset News.

Every woman in this community knows from experience the annoyance and expense of having to wear a corset that breaks at the waist. The "Cresco," by a smoothly adjusted disconnection at the front waist line, has forever done away with this pensive weakness. Glad to have you call and inspect the "Cresco." have its strong points explained to you. Wear it and it wins you; once won you'll wear no other.

ANOTHER BAD BOY SENT TO WAUKESHA

CHARLES SCHULER ARRESTED BY CHIEF HOGAN.

Boy's Parents Are the Complaining Witnesses Stating That They Can't Make Charlie Mind—Defendant Only Fourteen Years of Age—Janesville Sending Her Share.

This city is doing its share towards sending representatives to the State Industrial School for Boys at Waukesha. At 10 o'clock this morning Charles Schuler, the fourteen year old son of Mr. and Mrs. John C. Schuler of this city, was brought into the municipal court on the charge of being an incorrigible boy.

Mr. and Mrs. Schuler appeared as complaining witnesses. They stated that their son was a bad boy, and that they had no control over him. They stated that he was seldom at home; and that he would run away and remain several days at a time. Talking seemed to do little good. When asked by the court if he had anything to say, the youthful prisoner stated that he had not. Judge Fifield then administered a good lecture. Sentence was then passed. Schuler will remain at Waukesha until he attains the age of twenty-years, unless otherwise released by law.

Mr. and Mrs. Schuler, parents of the boy, are well known, and for many years have resided on McKey boulevard. Mr. Schuler is a skilled mechanic

AMERICANS IN THE ANTARCTIC

Palmer Named Washington Strait and Monroe Bay in 1821.

The first important discovery of land by an American came about in 1820. At that time the South Shetland Islands, sighted by Dirk Gerritz in 1598 and by him named New Iceland, had just been rediscovered by Sir William Smith, and, according to the good old English custom, duly rechristened. They seemed to offer a good field for sealers, and promptly a fleet from Stonington was on hand in Yankee harbor, then the southernmost refuge known. The commander, Capt. Pendleton, noticed lofty peaks still farther south, and sent Capt. N. B. Palmer in the sloop Hero, "but little rising 40 tons," to make investigations. Capt. Palmer found the new country extensive, but bleak and useless for sealing, and he promptly returned. Near Yankee harbor he fell in with the famous exploring expedition under Bellingshausen. The Russians had supposed the South Shetland to be a discovery of theirs, and were amazed to find an American vessel "apparently," as Fanning reports the speech of the commander, "in as fine order as if it were but yesterday she had left the United States." They were further amazed when Palmer told them of the new land beyond. Bellingshausen sailed farther south, and discovered more lands, but did not forget to give to Palmer the honor of first sighting the outlines of the continent. In the following season Palmer visited his discovery again, coasted it for almost 15 degrees—from about the 64th parallel of longitude to the 49th—and at 61 degrees 41 minutes came upon a strait which he named after Washington. He landed in a bay and christened it for Monroe. His names, however, together with those given by other Americans, have disappeared from the charts.—Scribner's.

BRITISH ADVANCE IN FORCE.

Gen. Buller's Army Has Crossed the Little Tugela.

ATTEMPT TO FLANK THE BOERS.

Decisive Battle Must Now Take Place in a Few Days—Official List of Casualties at Ladysmith—Russia Makes Preparations for War.

London, Jan. 13.—Gen. Sir Redvers Buller has at length begun his second attempt to relieve Ladysmith. A dispatch sent Thursday night shows that some part of his force has crossed the Little Tugela river and occupied a defensible position on the south bank of the main river a few miles north of Springfield, and within 8,000 yards of the enemy's strong intrenchments.

The movement is believed here to indicate that Gen. Buller intends to attempt a flanking attack on the right end of the Boers' line.

The burghers are understood to be in strong force at the junction of the two Tugelas. It was reported several days ago that Gen. Buller was building a railroad in the direction of Springfield from Frere, whither the greater part of his forces had withdrawn just prior to the fighting which began at Ladysmith last Saturday.

This was borne out by his comparative weakness in Colenso on Sunday, when he said he had ordered out all his available troops. These it is known now only amounted to about 10,000 men, whereas his army was fully, if not quite, 30,000.

It is reasoned here by military critics that the secret of the weakness of that demonstration was that the remainder of the army was occupied in other work.

They say that there is good reason to believe that these men, perhaps 20,000, have, by means of the railway spoken of or by the road to Springfield, which passes Doorn Kop, reached the position Buller now reports that he has occupied at Potgieter's drift, eight miles north of Springfield on the Tugela proper. He has the main position of the Boers well to his right, and if he is strong enough his position will be a serious menace to the right end of the Boers' line.

By means of pontoons he will probably be able to cross the river, even though it be, as he reports, in flood, and a serious battle will probable be fought when he does so, as the enemy is reported to be four and a half miles to his north, probably guarding the road to Dewdrop. If Buller reaches Dewdrop, which is only ten miles from his present position, he will be almost in sight of Ladysmith, which is only eight miles further.

The war officials state that they know nothing of the reported illness of Gen. Methuen. Nevertheless it is again rumored that Gen. Hector McDonald will supersede Gen. Lord Methuen in command of the Kimberley relief column.

The war office has issued a list of the casualties among the officers in the fight at Ladysmith last Saturday. Thirteen officers were killed and twenty-seven wounded. The earl of Ava, eldest son of the marquis of Dufferin and Ava, who was among the latter, has since died.

The war office list of casualties to the rank and file in the battle of Jan. 6 at Ladysmith shows that 135 were killed and 244 wounded.

A dispatch from Frere says the wounded Boer prisoners who have arrived there from Ladysmith state that Commandant Villiers and many of the best Free State Boers were killed in the fighting at Ladysmith.

Eager to Act Without Roberts.

Gen. Buller's movement is no surprise to military men here. The advance is believed to be made in accordance with important plans communicated by Gen. Buller to Lord Roberts, and sanctioned by the latter. Some critics think that Gen. Buller, whose dislike for Lord Roberts and contempt for his military capabilities are well known, is determined to carry through the Natal campaigns unassisted by the commander in chief. Doubtless he counts on the moral shaking administered to the Boers by Gen. Sir George White at Ladysmith to render his task easier. In that case it will be White helping Buller, rather than Buller relieving White.

Estimate of Boer Strength.

An apparently well-informed correspondent of the Morning Post says: "The Boer strength, originally 83,000 men, is now heavily augmented by Cape Colonists, and the enemy's fighting forces may be estimated fairly at 100,000 men and 200 guns. The Boers are not compelled to guard their communications. Their grass is good, the crops are good, vegetables, cattle and sheep are plenty, and game is abundant."

Boers Admit Defeat.

A Boer telegram from Pretoria admits that, while the burghers were successful at the beginning of the storming of the plateau at Ladysmith on the 6th, subsequently they were compelled to abandon two of their positions.

From Boer advices it appears that last Sunday at Colesburg the British were beaten back with loss.

Kitchener to Be Supreme.

It is believed here that Lord Kitchener is really chief in South Africa at the head of the British troops and Lord Roberts is a figurehead.

Mafeking and Kimberley Silent.

No news comes from Mafeking or Kimberley, and none is expected from the former point except by way of Mochudi, opposite Marico. Neither side at Modder river makes a move, though the naval guns are steadily shelling the Boer emplacements, in which new big guns have been set.

Invade Orange Free State.

Experts speculate upon Buller's probable intention of joining forces with Gen. White after the relief of Ladysmith, and, leaving 10,000 at Colenso to hold the Boers, making a raid upon the Orange Free State through the Drakensburg mountain passes. Every one is intensely anxious over the question as to whether the Boers can prepare trenches, get up guns, and arrange barb wire fence entanglements in time to meet the British at the point Buller selects to attack.

Kruger Favors Attack.

Modder River, via London, Jan. 13.—It is reported here that President Kruger has arrived at Bloemfontein to support Commandant Cronje's representations in favor of attacking Modder river. It is said that some of the other commandants are in favor of the Boers continuing on the defensive.

Ordered from Halifax.

Halifax, N. S., Jan. 13.—The first battalion of the Leinster regiment, which came here two years ago from Ireland, and is the infantry contingent of the garrison, has received orders from the war office to proceed to South Africa via Southampton.

London, Jan. 13.—The Official Gazette confirms the statement that parliament will meet on Jan. 30.

M'COY GIVEN THE DECISION.

Declared Victor Over Choynski—The Men to Meet Again.

New York, Jan. 13.—While Kid McCoy, the noted Indiana pugilist, was declared a winner over Joe Choynski of California at the end of the third round of their glove fight at the Broadway Athletic club Friday night, a majority of the 5,000 spectators were not wholly convinced that he was justly entitled to the victory.

An unfortunate mistake by the timekeeper in the second round probably saved McCoy from being put to sleep. The Kid had been knocked down four times, and as the referee counted the tenth second on the fourth down the timekeeper rang his bell. Choynski's timekeeper declared that McCoy had been down twelve seconds. McCoy's timekeeper said that only nine seconds had elapsed, while Referee John White was positive that as he made the tenth count McCoy was on his feet. As it was the ringing of the bell cut forty seconds off the round, in which time Choynski might have finished his man.

At the end of the third round, as the bell rang, McCoy landed a right hook on the jaw, which apparently knocked Choynski completely out. It looked as if the blow landed a second after the gong, and Choynski's seconds were positive that a foul had been committed. Choynski was in such a condition that he could not continue when called upon for the fourth round, and his seconds thereupon threw up the sponge.

The fight itself was a terrific mix-up all the way through, and demonstrated beyond a doubt that McCoy can take the gaff and come back. After the fight Choynski said that the referee was blameless, and after a powwow the principals were rematched to fight at this club on Feb. 20.

More Troops from Canada.

Ottawa, Ont., Jan. 13.—The Canadian government has practically accepted the offer of Lord Strathcona, Canadian high commissioner at London, to pay all expenses in connection with the raising, equipping and transportation of 400 mounted men for service in South Africa. WEEKLY REVIEW OF TRADE.

Business Conditions for the Coming Year Are Promising.

EASY MONETARY CONDITIONS.

Banks Tell of Increase in Per Cent of Commercial Loans—Bradstreet's Report Quietness in Demand, but Marked Steadiness—The Failures.

New York, Jan. 13.—R. G. Dun & Co.'s weekly review of trade says:

"The business of the new year begins well, though there is still much of the usual hesitation. In branches where last year's business was extraordinary and prices have risen greatly, some pause is natural though nothing indicates decrease of consuming disposition or purchasing power, but there is a continuing rise in wages to promote increase. Monetary conditions have grown easier with the return of $4,000,000 from the interior during the week and further deposits by the treasury and more liquidation in some speculative stocks has also helped. Banks report an increase in their per cent of commercial loans, and rates are generally more easy after the decline announced by European banks.

"Failures for the week have been 274 in the United States, against 318 last year, and 25 in Canada, against 24 last year.

Bradstreet's says:

"Quietness as to demand but marked steadiness as to prices is still the leading feature in trade lines, a condition, it might be remarked, not uncommon at this stage of the year, which is a sort of middle ground between stock-taking and inventory time and the actual opening of the spring season. Aggressive strength in prices is confined to a few staples, such as pork products, Tallow, cottonseed oil and similar products are sympathetically strong. Raw and refined sugars have both been advanced this week. Quite a flurry in coffee occurred as a result of reports of an outbreak o the plague at Rio. Raw wool is dull but firm, and speculation is naturally light.

"Wheat, including flour, shipments for the week aggregate 4,248,926 bushels, against 2,509,682 bushels last week. Corn exports for the week aggregate 3,314,576 bushels, against 4,019,036 bushels last week."

St. Louis Citizens Win.

St. Louis, Mo., Jan. 13.—The refusal of the city council to furnish the city with proper lighting nearly caused a bloody riot at the city hall Friday afternoon. As early as 2 o'clock crowds began assembling at the municipal building. Soon the corridors and stair cases were packed with an angry throng, which kept on shouting, "Lynch the scoundrels." The moment the galleries were thrown open they were packed with excited people. When the house was called to order the gallery hurled cries of "Boodlers!" "Thieves!" at the obnoxious members.

A temporary lighting bill from the council was presented when Delegate Kelly arose and read a carefully prepared statement of the situation from the side of the majority, which at the same time was an abject apology, promising the people the speedy relief demanded. The house then adjourned till 11 o'clock today, when the council lighting bill will be read a second time, and on Monday will be passed with an emergency clause.

Censure on Ministers.

London, Jan. 13.—Sir Charles Dilke will, upon the assembling of parliament, move an amendment to the address in reply to the queen's speech opening the session, regretting that the ministers failed to foresee the probability of war with the Transvaal and Orange Free State, and, notwithstanding the existence of ample means of information, erroneously estimated the extent and nature of the military operations necessary to the success of the British arms.

Miserable, Unhappy Woman

Suffering Needlessly When

DR. GREENE'S NERVURA

Blood and Nerve Remedy

WILL MAKE HER WELL.

Poor woman, with her delicate body and unstrung nerves. Life is hard on her. The world is heavy and it drags her over its rough roads regardless of the jars and shocks which tear her nerves and sap her life and beauty. And how she endures! Poets have sung of it—clergymen praised it—the world gained by it. But it is wrong, we say. It is wrong to suffer needlessly—to drag through life listless, weak, melancholy, useless and uninteresting. If there were no Dr. Greene's Nervura blood and nerve remedy, it would be different.

But there is! It is ready to add old time grace and spring to your feet, to light those dull eyes with sparkle and bring a dainty pink to those sallow cheeks. It has done it so often. There is no doubt about it.

Set your blood tingling and tighten up your nerves with a safe, sure remedy. What Dr. Greene's Nervura has done for others it will do for you—enrich your blood—strengthen your nerves, increase your appetite—in fact—make you well.

And it is just as good for men as it is for women—makes them look well and feel well.

Mrs. Caroline Chandler, Concord, N. H., says:

"For years I had trouble with my stomach and have consulted physicians and sought in various ways to find relief. In addition to my stomach difficulty, I suffered a great deal with pains in my back, and general weakness of the system. The first relief which I obtained was through the use of Dr. Greene's Nervura blood and nerve remedy, and I have continued to use the remedy whenever I felt it necessary to do so. I look upon Dr. Greene's Nervura as a valuable medicine, and take pleasure in recommending it to others."

Dr. Greene, 35 West 14th St., New York City, is the most successful specialist in curing nervous and chronic diseases. He has remedies for all forms of disease, and offers to give free consultation and advice, personally or by letter. You can tell or write your troubles to Dr. Greene, for all communications are confidential and letters are answered in plain, sealed envelopes.

WINE OF CARDUI

How a Woman Suffers.

HOWELL, IND., NOV. 28.

I will always praise Wine of Cardui. It has done me more good than all the medicines I have ever taken in my life. Please send a book about female diseases to the ladies whose names I enclose.

Mrs. MINNIE STODGHILL.

McELREE'S Wine of Cardui

It isn't necessary for a woman to give particulars. When she says she has "female troubles", other women know what that means. It means days and nights of endless suffering. It means headaches which no tongue can describe. It means that terrible bearing and dragging down in the lower abdomen. It means agonizing backache, and shoulder ache, and arm ache, and aches in the lower limbs. It means nerves on edge—the blues—despondency and loss of hope. It means debilitating drains that the doctors call leucorrhœa. It means martyrdom—sometimes even death seems preferable. And still Wine of Cardui will utterly put those diseases and pains to rout. It has cured thousands of cases when nothing else on earth would. To the budding woman, to the bride, to the wife, to the expectant mother, to those going through the Change of Life, this Vegetable Wine is a blessing.

STILL DRIVING INSURGENTS.

Gen. Otis Reports on Operations in Southern Luzon.

Washington, Jan. 13.—Gen. Otis has made a report to the war department in regard to the military operations in Luzon, south of Manila, showing the capture of several towns and a large number of prisoners with arms and ammunition. The message is as follows:

"Manila, Jan. 12.—Continued operations of Bates' command south of Manila; Thirty-seventh and Thirty-ninth regiments at Calamba, commanded by Bullard. Jan. 1 Bullard, with two battalions Thirty-ninth, attacked force of insurgents in vicinity, driving enemy, capturing town of Cobayno, and following day Binan; enemy's loss thirty killed, large number wounded; twenty prisoners and rifles captured; casualties, three men slightly wounded. Jan. 3 Boyn, three companies Thirty-seventh, captured Gen. Rizal, official papers and property, three miles east of Los Banos. Jan. 4 Long, detachment Thirty-ninth, attacked insurgents at Carmona; twenty-five killed; no casualties. Jan. 9 Bullard, with portions Thirty-seventh and Thirty-ninth regiments, attacked enemy south of Calamba, whom he drove beyond Santo Tomas, killing twenty-four, capturing artillery; casualties, one private killed, Capt. Baker and Lieut. Pelita, Thirty-ninth, slightly wounded. Jan. 11 Cheatham, Thirty-seventh, 106 men, supported by artillery, attacked insurgents two miles west Santo Tomas, driving them from that section; no casualties; Schwan's column, consisting of squadron of Fourth, one of Eleventh cavalry, Thirtieth, Forty-sixth infantry and six Nordenfeldt guns, under Capt. Van Dusen, seized Binan, Silang, Indang, Nale, scattering enemy, who were severely punished.

"Wheaton's column, three troops Eleventh cavalry, Fourth, Twenty-eighth, Thirty-eighth and Forty-fifth regiments, Astor and Kenley's batteries, has driven enemy from all important points north of Siland line; had heavy fighting, captured considerable public property, inflicting heavy loss upon and scattering enemy.

"Schwan's column now moving in northern Batangas in southerly direction. All Cavite province occupied by Wheaton's command, heavy loss to enemy during week in men, ordnance and other property; all operations very successful. OTIS."

FRENCH WARSHIPS ARRIVE.

Admiral Richard Confers with the Santo Domingo Government.

Santo Domingo, Jan. 13.—The United States gunboat Machias has arrived here. It anchored 1,000 yards east of the French warship Cecille. The French ironclad Suchet was sighted later, and signaled to Admiral Richard for instructions. The Suchet anchored 2,000 yards west of the Cecilie. Another French warship, the Troude, which has been sighted, is not in.

Admiral Richard is ashore conferring with the Dominican government. The public is opposed to American intervention.

Coliseum for Indianapolis.

Indianapolis, Ind., Jan. 13.—Hugh McGovern, backed by men of wealth, is having plans drawn for a coliseum that will be built in this city. The building will be on an immense scale, and will easily accommodate any national convention. It is the purpose of the promoters to go after national gatherings, political and otherwise, and bring them to Indianapolis.

CONGRESS WAS NOT IN SESSION TODAY

Sulzer Resolution to Investigate Sec'y Gage Stirred Up the House Yesterday.

Washington, Jan. 13—There was no session of the senate yesterday, it having adjourned over until Monday on Thursday evening. In the house the sensation of the day was the resolution of Representative Sulzer to investigate Secretary Gage. The house then also adjourned until Monday.

Mr. Catchings (Miss.) was sworn in as a member at the opening of the session of the house Friday. He has been detained at home since congress convened. The speaker presented the resignation of John Walter Smith, governor of Maryland.

Mr. Sulzer (N. Y.) then brought up for immediate consideration a resolution for the appointment of a special committee of nine members to investigate the relations of the secretary of the treasury with certain New York national banks, and the transactions relative to the sale of the New York custom house. Before the reading of the resolution was completed, Mr. Dalzell (rep. Pa.) objected on the ground that the resolution should go through the box in the regular way.

"Then I ask unanimous consent," said Mr. Sulzer, "for its consideration."

"I object," shouted Mr. Hopkins (rep., Ill.) and several other republicans.

"It is not before the house," observed Mr. Hopkins. "The able report of the secretary of the treasury has met all the charges it contains."

Lays Blame on Employers.

Washington, Jan. 13.—Joseph Bishop, secretary of the Ohio state board of arbitration, appeared Friday before the industrial commission and testified as to methods of arbitration and the general attitude of employes toward arbitration. His chief contention was that arbitration finds its greatest obstacle in the refusal of employers to recognize labor unions. In numerous instances, he says, officers of corporations had steadfastly held aloof from conferences, either with the board or with the laborers. He had never known the employes to refuse to deal with their employers.

Shipping Bill Is Discussed.

Washington, Jan. 13.—The senate commerce committee Friday gave a hearing on the Hanna-Payne shipping bill, at which former Senator Edmunds, representing the shipping interests, made the principal argument in favor of the bill. Louis Nixon of Elizabethport, N. J., a shipbuilder, urged the passage of the bill as the only means of building up the carrying trade of the United States. Thomas Clyde of the Clyde line also spoke in favor of the bill.

Bill to Regulate Trusts.

Washington, Jan. 13.—Representative Pearre of Maryland has introduced a bill providing for the appointment of a commission to regulate trusts somewhat on the order of the interstate commerce commission. The commission is to have five members to be paid $5,000 each a year, and the trusts are to be regulated, according to the bill, through the reduction of duties on articles manufactured or handled by them.

Condition of National Banks.

Washington, Jan. 13.—Comptroller of the Currency Dawes issued his quarterly report of the condition of the national banks of the United States. Comparisons are made with the statement made of Sept. 7, 1899. The new report shows total resources Dec. 2, 1899, of $4,475,343,924, compared with $4,650,365,133 last September. The decrease in aggregate resources is therefore $175,011,210 during the quarter.

Col. Bryan Starts East.

Lincoln, Neb., Jan. 13.—William J. Bryan started east last night to be absent at least six weeks. He will journey as far as Maine—his first visit to that section since his campaign of four years ago.

Question May Be Settled.

London, Jan. 13.—The foreign office officials say emphatically that the question of the Newfoundland fishing rights has been settled for at least a year through the acceptance by Great Britain of the French proposition that the modus vivendi be extended for another year, as Great Britain is not prepared in war time to discuss the matter, which is now a question between Great Britain and the colonial parliament, as the latter must ratify the extension.

After Half a Century

How Mrs Jewett was Cured after 50 Years of suffering.

The Metuchen Inquirer, Metuchen, N. J.

Mrs. J. E. Jewett.

The following statement is made by the wife of Mr. J. E. Jewett, the well known religious publisher of 77 Bible House, New York City. Mr. Jewett's pretty suburban home is at Metuchen, N. J., and Mrs. Jewett is a member of the First Reformed Church of Metuchen, and is highly esteemed in the community. She says:

"I was taken with Rheumatism when I was twenty years old, and endured awful suffering from the disease for nearly fifty years. During that time I was treated by regular physicians, and consulted the best specialists in New York and Philadelphia, but found no permanent relief. The pain was all in my knee joints, and was at times almost unbearable. I was unable to go out of doors, and could only hobble about the house with a cane. I finally bought some of Dr. Williams' Pink Pills for Pale People, and before I had used the first box I noticed an improvement. After I had taken two boxes I could walk without a cane, and went out of doors freely. Well, I continued using the pills and by the time I had taken thirty-six boxes I was entirely well, and suffered no pain at all. (Signed) MRS. J. E. JEWETT."

Dr. Williams' Pink Pills for Pale People expel impurities from the blood, and supply the material for rapidly rebuilding wasted nerve tissues. It has performed hundreds of almost miraculous cures in severe cases of Rheumatism, many times after doctors had given up hope.

HEAD OF FARMERS' TRUST.

Who He Is and How He Proposes to Help the Soil Tiller.

Walter L. Allen, the organizer of the plan by which the farmer can fight the trusts with their own weapons, is a man well known in Kansas. He is a farmer, a lawyer and a politician. He is the president and business manager of the Farmers' Federation of the Mississippi valley.

Mr. Allen proposes to form a farmers' combine with a capital of $20,000,000. Then he intends to establish commission houses in all the great trade centers. With such a combination he thinks he will be able to dictate terms to the railroad in the same manner as do the other great trusts. He expects to control the market for farm produce to a certain extent and make a more equal division of the products of agriculture between the producer and the distributer.

WALTER L. ALLEN.

Mr. Allen has had experience in many lines. For 30 years he has lived in Jefferson county, Kan., near Meriden, and in his personal business he has been successful. In public life he has been a member of the Kansas legislature, and has held the offices of county attorney, circuit and county clerk and probate judge of Jefferson county. He is a native of North Carolina and comes of Huguenot stock.

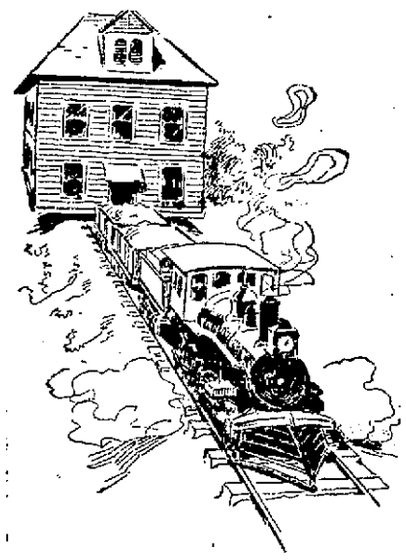

It was only after extended reflection on the causes that led to agricultural depression that Mr. Allen determined on the measures that seemed to him best for bringing relief.

Mr. Allen's leading thought is that the existing organization for the marketing of cattle and grain puts the producer largely at the mercy of temporary conditions and often makes him a slave at the hands of the buyer. By a combination of farmers through which the products will be held back from the market until they can profitably be disposed of, he believes that the producers will be put on a fair competitive level with other classes. He argues that if the federation has a membership representating only 5 per cent of the total production the margin will be sufficient to make it successful.

BIG MOVING JOB.

Courthouse Took a Twenty Mile Railroad Ride.

A remarkable job of moving was recently done in Nebraska. The courthouse of the county of Butte was taken from its firm foundation in Hemingford and set down in Alliance, 20 miles away, in two hours and a half. The moving was done by using flat cars and a locomotive. In this way the strange load was carried over the tracks of the Burlington and Missouri River railroad. The reason for moving the building was that the citizens had voted to change the county seat.

MOVING A COURTHOUSE.

The building moved was two stories high, 50 feet long by 40 feet wide, with a heavy truss roof and made of heavy hard pine wood. Its total weight was estimated to be not less than 100 tons.

When the building came to be placed in its new position at Alliance, it was found that the trip had not injured it in the slightest degree. The wrenching that a roller trip of the old style gives to a building had been entirely avoided. Not a nail had been started, not a piece of plastering displaced. The building had made the 20 mile trip over the smooth rails with as little damage as though constructed of solid metal. It was the simplest, smoothest, most satisfactory job ever accomplished and the railroad officials, as well as the contractor, are not a little proud of the feat.

THE LIFE INSURANCE CURE.

A Dying Bachelor Who Became Interested in a Plan for a Novel Funeral.

"I don't know that life insurance is a cure for disease," said the retired life insurance solicitor, "but I know of an instance which makes it look that way. In the town where I first began business was a bachelor of about 50 years, who was quite alone in the world, and had some years before taken out a five-thousand-dollar policy on himself for the benefit of a maiden sister, who had died a year before the events of this story. He kept his policy going, however, because it was a good way to save money, and one day he was taken down with some kind of fever. He grew worse day after day, until one day the doctor told him that he would in all likelihood be dead within the next twenty-four hours. This suggested his life insurance money, all he had to leave, and he immediately began to talk with the doctor on the subject of a proper disposal of it. He concluded after some thought that the best thing to do with it was to blow it in on a tremendous big funeral for himself, including a banquet for all the people he knew. This was an entirely new idea for a funeral, and when the doctor left him that night to the care of his nurse his mind was entirely occupied with his funeral. He talked to the nurse about it and when the nurse made him stop he lay and thought about it. In fact, he became so much interested in the details of his funeral that he quite forgot about having to die to make it possible. In the morning when the doctor came he found his patient in a wild perspiration and his pulse beating in much better fashion than it had been doing for some days. He also found the general condition of the patient much improved. He was greatly astonished, and at once began to ask questions. The patient told him with eager interest of a lot of new things he had thought of for the funeral and some that bothered him a good deal and said he had been thinking of it all night. Then the doctor laughed and told him he guessed the funeral would have to be postponed, for he wasn't going to die, just then anyhow. Nor did he, and he isn't dead yet, but he is married and has his policy paid up for his wife's benefit."

WASHINGTON PIE.—Make two round layer sponge cakes and spread between them a layer of pastry cream or chocolate filling. Dust the top with powdered sugar. For the filling boil with a pint of milk or water five tablespoonfuls of sugar and one tablespoonful of butter. Stir until thickened; add flavoring. When partly cool, spread it on the cake.

CHOCOLATE FILLING.—Mix half a cupful of milk and one of sugar; stir till sugar is dissolved, then add one ounce of shaved chocolate and the beaten yolks of two eggs. Stir until it is thickened, flavor with milk and let partly cool before spreading.

WHY IT SUCCEEDS.

Because It's For One Thing Only, and Janesville is Learning This.

Nothing can be good for everything.

Doing one thing well brings success.

Doan's Kidney Pills do one thing only

They're for sick kidneys.

They cure backache, every kidney ill

Here is Janesville evidence to prove it:

Mrs. S. L. Belden, of 64 S. River St., says: "During two or three years I suffered most of the time with a terrible dragging down pain in my back just over the kidneys. It was very trying when I was at work, and if I did any lifting my bladder became effected, causing me considerable annoyance. I also had attacks of headaches, which seemed like congestion in the top and back of my head. When I read about Doan's Kidney Pills I did not have any too much confidence in them, but my daughter got a box at the People's Drug Co's. store and persuaded me to use them. They took right hold and made a wonderful change in my condition. I hardly realized how bad I was until Doan's Kidney Pills brought me relief from the afflictions."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents fos the United States.

Remember the name Doan's and take no other.

Becoming a Mother

Is an ordeal which all women approach with indescribable fear, for nothing can compare with the horrors of child-birth. The thought of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipation of the coming event, and casts over her a shadow of gloom that cannot be shaken off. Thousands of women have found that the use of MOTHER'S FRIEND during pregnancy robs confinement of all pain and danger, and insures safety to mother and child. This scientific liniment is a godsend to all women at the time of their most critical ordeal. Not only does MOTHER'S FRIEND carry woman safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period. Sold by all druggists at $1.00 per bottle. Send for free booklet to THE BRADFIELD REGULATOR CO., Atlanta, Georgia.
